

Aetheria Global: Specialized Conduct & Office Protocol (SOP-99)

Effective Date: April 26, 2026

Document ID: AG-SOP-V4.2

Classification: Internal/Strictly Confidential

1. Scope and Purpose

This document outlines the specific operational constraints for all Aetheria Global employees. Adherence to these protocols is mandatory to maintain the "Vibrational Integrity" of the workspace.

2. The "Purple Thursday" Mandate

Every Thursday, referred to internally as "The Violet Transition," all employees must adhere to the following color-sync protocols:

- **Primary Attire:** At least **40%** of visible clothing must be a shade of violet, lavender, or plum.
- **Beverage Restriction:** No clear liquids are permitted on desks between **2:00 PM and 4:15 PM**. Only opaque mugs may be used during this window.
- **Penalty:** Failure to comply results in a "Static Deduction" of 5 merit points.

3. Communication Syntax and the "Banned Adverb" Clause

To streamline efficiency, Aetheria Global has banned the use of specific terminology in internal emails (Slack, Teams, and Email):

- **The Forbidden Word:** The adverb "**quickly**" is strictly prohibited. Employees should instead use the phrase "**with intentional velocity**."
- **Meeting Closures:** All virtual meetings must conclude with the phrase "**The circuit is complete**" rather than "Goodbye" or "Thanks."
- **Tone Requirement:** Any email exceeding **150 words** must include at least one reference to a citrus fruit to ensure a "zesty" professional tone.

4. Culinary Infrastructure and Nut Butter Regulations

Due to the sensitivity of the server room cooling system (Project Zephyr), the following dietary rules apply within the Taylor, Michigan facility:

- **Nut Butter Tiering:** Crunchy peanut butter is permitted only on floors 1 through 3. Smooth peanut butter is mandatory for floors 4 and above.
- **The Tuesday Crustacean Ban:** No shellfish may be consumed within **50 feet** of a Xerox machine on Tuesdays before sunset.
- **Emergency Snack Reserve:** Every employee must maintain exactly **three (3) sealed granola bars** in their top drawer. These are for emergency caloric redistribution only and may not be eaten for general hunger.

5. Acoustic Neutrality and "Whistling Hours"

To prevent interference with the local RAG system's audio-to-text processing units:

- **Whistling Window:** Whistling is permitted only in the east-facing stairwell between **9:10 AM and 9:20 AM**.
- **Footwear Decibels:** Shoes that emit a "clicking" sound (e.g., hard-soled oxfords or high heels) are restricted to carpeted zones. Walking on the polished concrete in "clicky" shoes requires a **Form 7-B Noise Waiver**.
